

Anton Lachmaniucu

Experience

SENIOR MOBILE ENGINEER Intellitix - APRIL 2023 - NOW

- Successfully integrated the Adyen payments system into the POS app at Intellitix, bringing about a 20% increase in transaction processing efficiency and contributing to a 15% boost in customer satisfaction.
- Implemented a series of performance upgrades to the POS app, prompting a 40% reduction in loading times and an 18% increase in app responsiveness, leading to enhanced user engagement.
- Played a pivotal role in expanding the company's market reach by contributing to the release of an iOS version of the React Native POS app, resulting in a 30% growth in user base and a broader audience reach for Intellitix's event management solutions.

SENIOR SOFTWARE ENGINEER Stadium Live - JULY 2022 - APRIL 2023

- Led and executed a comprehensive codebase refactoring and implementation of best practices, resulting in a 25% reduction in bug reports and an increase of 20% in development speed at Stadium Live.
- Mentored and guided new team members, leading to a 50% decrease in onboarding time and fostering a unified development approach through the establishment of engineering conventions.
- Strategically revamped substantial portions of the UI codebase, resulting in an impressive 35% increase in app performance and a more seamless user experience, positively impacting user retention rates.

SOFTWARE ENGINEER, Coinberry LTD - JULY 2021 - JULY 2022

- Managed efforts to recover lost funds for clients (dealing directly with ERC20 token recoveries), created a process that made each recovery 80% cheaper.
- Created a system to handle client suitabilities in compliance with OSC directive , applying trade restrictions and other restrictions
- Leading a project to integrate with Comply Advantage, dealing directly with Product, Design, and SMT team members for collaboration and requirements.

SOFTWARE ENGINEER, FundThrough INC - FEB 2019 - JULY 2021

- Developed scalable backend microservice capable of processing 2000+ invoices per second, by leveraging my knowledge of system design and Ruby on Rails.
- Redesigned the FundThrough marketing site (fundthrough.com) using knowledge of Wordpress, PHP and CSS, to bring branding more in line with FundThrough values.
